Developer: Thomas R. Bernard

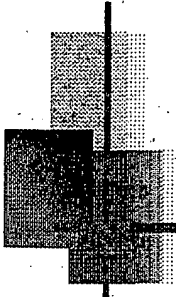

# Description

---

- System Uses Vehicle VIN Number As Compliance File Number
- Wireless Portable/Internet Enabled Barcode Scanners Used
- 90% Vehicles In State Covered
- Win/Win Situation
- Law Is Now Easier To Enforce
- Compliance Takes No Drastic Steps

- 
- **24hr. /INSTANT UPDATES ON ANY CHANGES  
COVERAGE OR CANCELLATION!**

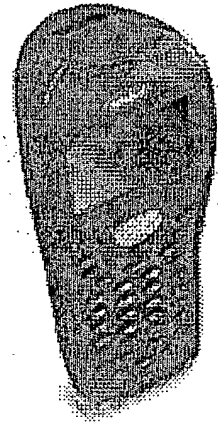

# Competitive Analysis

---

- **Competitors**
  - None
  - We Designed And Developed It!
  - Developed In Louisiana
  - Made In Louisiana

# Newest Technology Being Used

---

- Symbol Wireless Scanner
- Zebra Technology Barcode Printers
- RIM Wireless Radios
- Pentium III "Hot-Swap" Servers
- Registered BellSouth Wireless Developer

# Wireless – Portable – Available

---

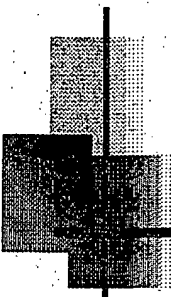

- Your Place Or Mine?
  - System Allows 90% Vehicles In State Coverage
  - Hand Held Readers
  - BellSouth Wireless Network
  - Major Manufacturing Partners
  - Hardware Available
  - Custom/Locally Written Software

# Benefits

---

- No More Dealing With Angry Drivers
- Scan Autos At Your Convenience
- Enforcement Done Without “Invading” Someone’s Privacy
- Compliance Is Maximized
- Able To Write Notice And Enter Info At Same Time
- Rates Should Decline With More Policies Being Written

# Future Upgrades To System

---

- Medical History Of Drivers
- Immediate Access To "Next Of Kin"
- Has Vehicle Been Reported Stolen?
- Organ Donor Wishes
- List Of Approved Operators
- Expand Into Other States – Shared Files Allow You To Scan Out Of State Vehicles

# This Is NOT "Big Brother"

- System's Main Goals Are Being Able To Enforce Mandatory Insurance Laws, To Eliminate The Need For Road Block Check Points
- This Is A Tool To Help Solve A Major Problem – Getting The Uninsured VEHICLE Off The Road
- Freeing Up Time
- Scan Unattended Vehicles Around Federal And State Buildings
